SonoFlat Systems™

SFS-112

Installation Guidelines

Congratulations on purchasing a SonoFlat™ SFS-112™ System from Auralex® Acoustics.

You're now on your way to creating a world class listening environment.
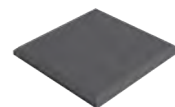

SonoFlat Systems offer a sophisticated look by utilizing a specialized flat-faced cut of Auralex's industry-leading Studiofoam. The SFS-112 system contains both SonoFlat Panels and SonoColumns, which when used together, provide incredibly effective broadband absorption in any room. Use the SFS-112 alone for treatment of small to medium-sized rooms or in combination with other Auralex products for full control of larger spaces.

Thank you for Purchasing Auralex® Total Sound Control® Products!

SonoColumn Installation Guide Continued

3 Carefully press **SonoColumn** to the marked location of the wall or ceiling. Maintain continuous pressure. Depending on environmental and surface conditions, it will take anywhere from 2-4 minutes to hold.

TIP
For a stronger hold, with the adhesive applied, press SonoColumn firmly into place, immediately remove it and press it firmly again into the same spot.

4 Place **SonoCollar** around **SonoColumn**, if desired. The inside section of each **SonoCollar** can also be used to increase the height of the **SonoColumn** by 6".

Or

SonoFlat Panel Installation Guide

1 Mark intended location of each **SonoFlat Panel** on the wall or ceiling.

2 Apply **Tubetak Pro** to the back of the **SonoFlat Panel**, as pictured.

TIP
You can use T-Pins to temporarily hold the panel in place while the adhesive sets.

3 Carefully press **SonoFlat Panel** to the marked location of the wall or ceiling. Maintain continuous pressure. Depending on environmental and surface conditions, it will take anywhere from 2-4 minutes to hold.
