Avance Ultimate Wok

Congratulations

on the purchase of your new Breville Avance Ultimate Wok

Your Avance Ultimate Wok with its 'High Wall' heat system delivers 'gas style' performance. Its secret lies in its high wall 2400W Heat Element, which creates a high heat zone over the entire wok surface.

Your new Avance Ultimate Wok also features the new Quantanium scratch resistant coating which allows the use of metal utensils without damaging the surface.

BREVILLE RECOMMENDS SAFETY FIRST

We at Breville are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer foremost in mind. In addition we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions:

READ ALL INSTRUCTIONS BEFORE OPERATING AND SAVE FOR FUTURE REFERENCE

- This appliance is for household use only. Do not use this appliance for other than its intended use. Do not use outdoors.
- The appliance is not intended for use by young children or infirm persons without supervision.
- Do not leave the appliance unattended when in use. Young children should be supervised to ensure that they do not play with the appliance.
- Do not touch hot surfaces. Use handles.
- Always use the Avance Ultimate Wok on a dry level surface.
- Do not place this appliance on or near a hot gas or electric burner, or where it could touch a heated oven.
- When using this appliance, provide adequate air space above and on all sides for circulation.
- On surfaces where heat may cause a problem, an insulating mat is recommended.
- Do not let the cord hang over the edge of a table or counter, touch hot surfaces or become knotted.
- Do not immerse cord, plug or temperature control probe in water or any other liquid.
- Always turn the power off at the power outlet and then remove the plug, and then remove the temperature control probe before attempting to move the appliance, when the appliance is not in use and before cleaning.
- Do not use harsh abrasives, caustic cleaners or oven cleaners when cleaning this appliance.
- Regularly inspect the supply cord, plug and actual appliance for any damage. If found damaged in any way, immediately cease use of the appliance and return the entire appliance to the nearest authorised Breville service centre for examination, replacement or repair.
- The installation of a residual current device (safety switch) is recommended to provide additional safety protection when using electrical appliances. It is advisable that a safety switch with a rated residual operating current not exceeding 30mA be installed in the electrical circuit supplying the appliance. See your electrician for professional advice.

KNOW YOUR BREVILLE WOK

2400 watt 'high wall' element

The element in your Wok is recessed around the wok base sides creating a wide heat zone over the entire wok surface. The heavy die-cast construction of the wok bowl is designed to retain even heat and save energy.

Sealed element

The unique heating element is fully sealed, so the Avance Ultimate Wok is dishwasher safe and can be fully immersed in water for easy cleaning.

Cook 'n' Look Glass Lid

With the lid in place, the Avance Ultimate Wok can be used for slow cooking foods such as curries and casseroles. Use the steam vent to release excess steam build up during slow cooking or to reduce liquids.

Unique Pull-out Spoon Rest

Designed to allow the charn to rest while not being used. Keeps kitchen mess to a minimum.

Easy Push-Lever Removable Base

Your Avance Ultimate Wok has a quick release removable base for easy cleaning. This allows the Avance Ultimate Wok to fit easily into the dishwasher or sink. Simply move the lever button to the right to unlock the base.

Plastic Spatula

Your Avance Ultimate Wok is supplied with a plastic churn for stirring foods, as it won't damage the non stick surface.

New Quantanium Scratch Resistant Non-Stick Cooking Surface

Your Breville Avance Ultimate Wok features the new highly resilient Quantanium coating. It features special scratch resistant minerals causing metal utensils to slide over these particles without damaging the coating.

The end result is a non stick coating which enables the use of metal utensils such as spatulas and spoons, but not sharp utensils.

This non stick surface also means that foods won't stick and less oil can be used while cooking.

Regular high heat cooking may discolour the non-stick Quantanium surface, this is normal and will not affect the performance of the non-stick coating.

Removable Temperature Control Probe

The temperature probe has 14 heat settings plus 'High Sear' for accurate temperature control. The 'High Sear' setting should be used for searing and sealing meats when stir frying.

The light on the probe switches off automatically when the temperature is reached and will cycle on and off during cooking in order to maintain the temperature selected.

KNOW YOUR BREVILLE WOK cont'd

The numbers on the dial represent the following temperatures approximately.

HEAT SETTINGS	FUNCTION	TEMPERATURE GUIDE
1	Keep food warm Slow cooking sauces Casseroles	Low Heat/Slow Cook
2		
3		
4		
5	Curries, pasta Rice, browning nuts Shallow frying	Medium Heat
6		
7		
8		
9	Vegetable stir frying	High Heat
10		
11		
12		
13	Stir frying Sealing meat, stir frying	High Sear
14 High Sear		

NOTE!!

For best results allow the Avance Ultimate Wok to preheat for 10 minutes on the 'High Sear' setting before beginning to cook.

NOTE!!

Temperatures given are a guide only and may require adjustment to suit various foods and individual tastes.

OPERATING YOUR BREVILLE WOK

BEFORE FIRST USE

- It is recommended you remove any promotional labels and wash your Wok and lid in hot soapy water. Rinse and thoroughly dry.

NOTE!!

Before inserting temperature control probe into the Wok socket ensure the interior of the socket is fully dry. To do this, shake out excess water then wipe the interior of the socket with a dry cloth.

- The base is removable for easy cleaning (see page 11).
- Do not immerse the cord and/or temperature control probe in water or any other liquid.

OPERATING YOUR WOK

1. With the Push-Lever Removable Base button in the 'unlock' position, place the Avance Ultimate Wok into the outer housing. Ensure the Wok is firmly located on the base tray then move the Push-Lever button to the 'lock' position.

2. Insert the Temperature Control Probe into the socket at the side of the Avance Ultimate Wok. Plug into a 230/240v power outlet and switch 'on'. Always insert the heat controller into the appliance first, then plug into main power outlet.

OPERATING YOUR BREVILLE WOK cont'd

3. Preheat the Avance Ultimate Wok on the 'High Sear' setting for approximately 10 minutes. The thermostat 'On' light will illuminate on the heat control indicating the temperature at which the dial is set.
4. When the thermostat light goes out this indicates the wok has reached its set temperature. The wok is now ready for use. The thermostat light will cycle on and off throughout cooking as the temperature is maintained by the thermostat.
5. When cooking is completed, turn temperature control knob to the off position ("0" on dial) before switching off at the power outlet. Unplug from power outlet. Leave temperature control probe connected to the appliance until cool.

NOTE!!

The Avance Ultimate Wok must be used with the temperature control probe provided. Do not use any other temperature control probe or connector.

NOTE!!

When stir fry cooking and a high heat is required, set temperature dial to 'High Sear' and allow thermostat light to cycle on and off several times. This will allow the cooking surface to adjust to a more accurate cooking temperature.

NEVER OPERATE THE AVANCE ULTIMATE WOK WITHOUT THE BASE POSITIONED DIRECTLY IN PLACE.

NEVER PLACE OIL OR FOOD INTO A COLD WOK WHILE IT IS HEATING, THIS WILL GIVE A POOR COOKING RESULT.

THE AVANCE ULTIMATE WOK GETS VERY HOT DURING USE, ALLOW THE UNIT TO COOL BEFORE MOVING OR STORING.

CARE AND CLEANING

- Allow the Avance Ultimate Wok to cool down before cleaning.
- Before cleaning switch the wok 'off' and unplug from the power outlet. Remove the temperature control probe from the socket in the appliance by depressing the 'easy release' lever on the side of the probe (refer page 6).
- Do not leave plastic cooking utensils in contact with the Avance Ultimate Wok while cooking.

TEMPERATURE CONTROL PROBE

- If cleaning is necessary, wipe over the unit with a slightly damp cloth.

NOTE!!

Do not immerse the cord, plug or temperature control probe in water or any other liquid.

Storage : Store the control probe carefully. Do not knock or drop it as this can damage the probe. If damage is suspected, return the Temperature Probe to your nearest Breville service centre for inspection.

NOTE!!

For convenient storage of the Temperature Probe, line the wok bowl with two sheets of kitchen paper and place the probe on the kitchen paper. This will ensure the probe and plug doesn't scratch the non-stick coating.

NEW QUANTANIUM SCRATCH RESISTANT COATING

Your Avance Ultimate Wok features a special scratch resistant non stick coating that makes it safe to use metal utensils when cooking.

Regardless of this fact, Breville recommends that care is taken with the non-stick coating particularly when using metal utensils. A plastic spatula has been provided for your use.

Do not use sharp objects or cut food inside the Avance Ultimate Wok. Breville will not be liable for damage to the non-stick coating where metal utensils have been misused.

Cooking on a non-stick surface minimises the need for oil, food does not stick and cleaning is easier.

Any discolouration that may occur will only detract from the appearance of the Avance Ultimate Wok and will not affect the cooking performance.

To clean interior and exterior surface

When cleaning the non-stick coating do not use metal (or other abrasive) scourers. Wash in hot soapy water. Remove stubborn spots with a plastic scouring pad or nylon washing brush.

REMOVABLE BASE

TO REMOVE THE BASE FOR CLEANING

1. Move the Push-Lever Removable Base Button to the 'unlock' position.

2. Lift the base from the wok, lifting over the heat controller socket.

The wok base may be washed in hot soapy water, dry thoroughly. The wok base is dishwasher safe.

The Avance Ultimate Wok should never be operated without the wok and base fully assembled and locked into place.

3. To relock base to wok, move Push-Lever Removable Base Button to the 'lock' position.

GLASS LID

Wash the glass lid in warm soapy water using a soft sponge, rinse and dry thoroughly. The glass lid is dishwasher safe.

NOTE!!

Take care when the glass lid is hot. Do not place hot lid under cold water or on cold surfaces. This may cause lid to break.

PULL-OUT SPOON REST

Remove the spoon rest from the wok base by simply pulling the rest all the way out from the base and depressing the area in the middle. This will allow the spoon rest to be fully removed. Wash in warm soapy water using a soft sponge, rinse and dry thoroughly. Alternatively, the spoon rest can be placed into the dishwasher.

DISHWASHER SAFE

Your Avance Ultimate Wok is dishwasher safe for easy cleaning. The recessed heating element is completely sealed so it is safe to immerse in water. Both the top and base of the Avance Ultimate Wok may be placed in the dishwasher. It is recommended that the base be washed by hand.

NOTE!!

Before inserting temperature control probe into the Wok socket ensure the interior of the socket is fully dry. To do this, shake out excess water then wipe the interior of the socket with a dry cloth.

COOKING TECHNIQUES

STIR-FRYING

Recommended temperature probe setting - 'High Sear' for stir frying meat.

13 - 14 for vegetables and seafood

- Stir frying is an energy efficient and healthy way of cooking foods. The benefit of this method is its speed and the flavour result. The non-stick cooking surface on your wok also means that less oil is required for cooking. The cooking action for stir frying is a continual tossing motion to ensure the food is evenly exposed to the heat and cooks quickly and evenly in a couple of minutes.
- Stir frying should be carried out using a high heat setting.
- Preheat your wok before adding any ingredients, allow the temperature light to cycle 'on' and 'off' several times. This will allow the wok to reach an even high temperature.
- Stir frying is a dry heat cooking method and is best suited to tender cuts of meat. Timing is a key factor when cooking them as over cooking will give a tough, dry result. Cooking times depend on the size and thickness of the cut, as the bigger the cut the more time is needed.

RECOMMENDED CUTS FOR STIR FRYING

BEEF

Lean beef strips prepared from rump, sirloin, rib eye and fillet.

CHICKEN

Lean chicken strips prepared from breast fillets, tenderloins, thigh fillets.

LAMB

Lean lamb strips prepared from fillet, lamb leg steaks, round or topside mini roasts and loin.

PORK

Lean pork strips prepared from leg, butterfly or medallion steaks or fillet.

VEAL

Eye of loin, fillet, round, rump or topside.

COOKING TECHNIQUES cont'd

STIR FRY TIPS

- Buy meat strips from your butcher or supermarket, or prepare meat strips from recommended cuts listed above by removing any fat and slicing thinly across the grain (across direction of meat fibres). Slicing across the grain ensure tenderness. Cut into very thin strips, approximately 5 - 8cm in length. Partially freeze meat (approximately 30 minutes) to make slicing easier.
- Stir fry meat strips in small batches (approx 200 - 300g) to stop meat shedding its juice and 'stewing', resulting in tougher meat.
- When adding meat strips to the frypan, the strips should sizzle.
- Stir fry meat strips for 1 - 2 minutes. Any longer will toughen meat.
- Remove each batch when cooked and allow frypan to reheat before stir frying the next. By cooking in small batches the heat of the frypan remains constant, ensuring the meat doesn't stew and toughen.
- A small amount of oil can be mixed through the meat strips before adding to the frypan, along any other flavouring such as garlic, ginger and chilli. A little sesame oil can also add flavour. Mixing the meat with the oil rather than heating it separately in the frypan eliminates using too much.
- Drain off thin marinades from meat strips before stir frying to prevent stewing and splatter.

Fry vegetables before meat in a little oil (or sprinkling of water) until vivid in colour for:

3 MINUTES

Onion, quartered
Broccoli, flowerets
Carrots, sliced
Soaked Chinese dried Mushrooms

2 MINUTES

Snow peas
Capsicum, sliced
Zucchini, sliced
Water chestnuts
Bamboo shoots

1 MINUTE

Garlic, minced
Chilli, minced
Ginger, minced
Shallots, chopped
Bean sprouts

This brief cooking time will keep vegetables crisp.

- Peanut oil is traditionally used for stir fry Asian style dishes. However other oils such as vegetable, canola and light olive may be used.
- Do not over fill the frypan. If necessary cook in batches and reheat at the end of stir frying. If using this method remember to under cook slightly to not overcook the end result.
- Serve stir fried foods immediately to retain their crisp texture.

COOKING TECHNIQUES cont'd

SHALLOW FRYING

Recommended temperature probe setting 8-10.

Used to crispen and cook foods in a small amount of oil. The foods may have already been cooked.

- Use approximately 3 cups of oil, or sufficient oil so that half the food is immersed.
- Preheat the oil before adding food. When using oil never cover with the lid during heating or cooking as this will cause condensation to drip into the oil and result in bubbling and splattering.
- Do not move the wok during heating or cooking.
- Wipe moisture from foods to avoid splattering.
- Cook a few pieces at a time to ensure crispness.
- Drain cooked foods on kitchen paper to reduce greasiness.
- Never leave your frypan unattended or unsupervised while shallow frying.
- Allow oil to cool before removing from frypan.
- Vegetable, peanut or canola oil is recommended for frying.

SLOW COOKING (BRAISING)

Recommended temperature probe setting 1 - 2.

Your Avance Ultimate Wok is ideal for slow cooking curries and casseroles. Slow cooking allows less tender meat cuts to be used, to obtain a tender result. Less tender meat cuts contain sinew and gristle, these will be broken down during cooking to give a tender result. It is not recommended to slow cook with tender meat cuts as they will toughen and shrink during cooking.

It is recommended during slow cooking to place the lid on to retain the heat. During the cooking process the curry or casserole will boil then turn off. This is normal operating for a probe controlled unit.

RECOMMENDED CUTS OF SLOW COOKING (BRAISING)

BEEF

Diced blade (boneless), chuck, round, shin, silverside

CHICKEN

Dices thigh, leg

LAMB

Diced forequarter, shanks and neck chops

VEAL

Diced forequarter, leg and knuckle (Osso Bucco)

PORK

Diced forequarter, leg

COOKING TECHNIQUES cont'd

SLOW COOKING TIPS

- Cut meat into 3cm cubes. Trim any visible fat.
- Use a medium to low heat setting
- Cook for approx 1 1/2 - 2 hours, stirring occasionally with the lid on.
- Add soft or quick cooking vegetables such as mushrooms, tomatoes, beans or corn in the last half hour of cooking.
- Thicken towards end of cooking by stirring a little cornflour blended with water, or plain flour blended with margarine or butter. Alternatively, coat the meat in plain flour before browning.

PREPARATION TECHNIQUES

The success of any dish depends on careful forethought and preparation. To achieve an authentic Oriental appearance and even cooking results, food should be cut into small, even pieces. This allows food to cook quickly and to be easily picked up with chopsticks.

SLICING

A straight slice is used for cutting meats and vegetables. Slices should be of an even thickness. Partially frozen meat will slice more evenly. Slice meat very thinly, across the grain to obtain a more tender result.

MATCHSTICK OR JULIENNE

First slice the vegetables as described above. Then, stack slices and cut again into thin or thick sticks depending on the recipe.

SHREDDING

Used for cutting meats and vegetables. 5mm slices of food should be stacked, then cut again into 5mm sticks. Vegetables such as cabbage and spinach should have their leaves stacked, then rolled up. Cut width ways very finely.

CUBING AND DICING

Used for cutting meats and vegetables. To cube, cut 3cm slices, then stack them on top of one another and slice 3mm thick in the opposite direction. Cut again in the opposite direction forming 3cm cubes. To dice, follow the same directions, making 5mm slices forming 5mm cubes.

SPECIAL INGREDIENTS

A little planning ahead makes stir frying easier.

AGAR-AGAR

Is made from different types of seaweed. It has excellent setting properties, similar to gelatine, and will set at room temperature.

BOK CHOY

Also known as Chinese chard or Chinese white cabbage, has fleshy white stems and dark green leaves. It has a slight mustard taste. There is also a smaller version called shanghai or baby bok choy.

BAMBOO SHOOTS

The young tender shoots of bamboo plants are available in cans. They are mainly used to add texture to food.

COCONUT CREAM AND COCONUT MILK

Both coconut cream and milk are extracted from the grated flesh of mature coconuts. The cream is a richer first pressing and the milk the second or third pressing.

CHILLIES, FRESH AND DRIED

Chillies are available in many different types and sizes. The small ones (birds eye or bird peppers) are the hottest. Use tight fitting gloves when handling and chopping fresh chillies as they can burn your skin. The chilli seeds are the hottest part of the chillies so remove them if you want to reduce the heat content of recipes.

CORIANDER

This is also known as cilantro and Chinese parsley. It is essential to many Southeast Asian cuisines. A strongly flavoured herb, use it sparingly until you are accustomed to the unique flavour. Parsley can be used as a substitute; it looks the same but tastes quite different. Coriander is available fresh, ground and in seed form.

CHAR SIU SAUCE

This is the equivalent of Chinese BBQ sauce.

CRISP FRIED SHALLOTS

These are available from most Asian Supermarkets pre-prepared.

SPECIAL INGREDIENTS

FISH SAUCE

A thin, salty dark brown sauce with a distinctive fishy smell, which is used extensively in Thai and Vietnamese cookery. It is made from small fish that have been fermented in the sun. Fish sauce replaces salt in many recipes.

GARAM MARSALA

A blend of spices, usually consisting of some combination of cinnamon, cumin, pepper, cloves, cardamom, nutmeg and mace. It can be bought already blended from supermarkets, but it is best freshly made. It is usually added towards the end of cooking.

GREEN GINGER WINE

An Australian made alcoholic sweet wine infused with finely ground ginger.

HOISIN SAUCE

This sauce is a thick sweet Chinese barbecue sauce made from a mixture of salted black beans, onions and garlic.

HOIKKIEN NOODLES

Also known as fukkien, these are thick, yellow and rubbery in texture. They are made from wheat flour and are cooked and lightly oiled before being packaged and sold. The noodles need to be broken up before cooking.

RICE NOODLES

These are fresh white noodles, they do not require a lot of cooking.

KAFFIR LIME LEAVES

These are dark green, shiny, double leaves which have a very pungent perfume. They are rather thick and must be sliced very finely for use as a garnish, or added whole in a curry.

LEMON GRASS

An aromatic fresh herb that is used in curry pastes, stir fries and soups. Trim the base, remove the tough, outer layers and finely slice, chop or pound the white interior. Whole stems can be added to soups or curries. Dried lemon grass needs to be soaked in water, but the flavour of fresh is superior.

LYCHEES

Delicious fruit with a light texture and flavour, peel away the rough skin, remove the seed and use. They are also available in cans.

RICE WINE VINEGAR

Milder than most western vinegars, it usually has an acidity of less than 4%. It has a mild, sweet, delicate flavour and is made from rice.

SPECIAL INGREDIENTS

SAMBAL OELEK

This is a paste made from ground chillies and salt. This can also be used as an ingredient or an accompaniment.

TAMARIND

Tamarind has a fruit, tart flavour and is a large, brown bean like pod. It is available as a dried shelled fruit, a block of compressed pulp or as a puree or concentrate.

TOFU

Tofu, or bean curd, is a high protein, low fat food made from soya beans. It is available in very firm or soft blocks and is either fresh or vacuum-packed. It takes on the flavour of the spices and sauces it is cooked with.

TURMERIC

This is best known in its powdered form and is often used to colour food. It has a bitter flavour and it is also available fresh as a root, rather like ginger, which is peeled and then grated and finely chopped.

SZECHUAN PEPPER CORNS

These are available from most Asian Supermarkets and have a slight aniseed taste.

WATER CHESTNUTS

Small white crisp bulbs with a brown skin. Canned water chestnuts are peeled and will keep for about 1 month, covered in the refrigerator.

SOUPS

CHICKEN AND SWEET CORN SOUP

Serves 4-6

- 1 tablespoon peanut oil
- 1 clove garlic, crushed
- 500g creamed corn
- 150g cooked and shredded chicken meat
- 4 cups chicken stock
- 4 egg whites
- 1 tablespoon of finely chopped parsley
- 1 teaspoon ground black pepper
- 4 green shallots, sliced

1. Heat the oil in the wok on high sear setting.
 2. Add the oil then garlic, corn, and chicken meat and stir fry for 1 minute.
 3. Add the chicken stock and bring to the boil, reduce the heat to setting 2.
 4. Add the egg whites and stir to break them up.
 5. Sprinkle with parsley and pepper.
- Serve with sliced green shallots.

THAI HOT AND SOUR PRAWN SOUP 'TOM YUM GOON'

Serves 6

- 2 Kaffir lime leaves, cut in 1/2
- 1 stalk lemongrass, bottom third finely sliced
- 1 teaspoon grated ginger
- 1 table spoon tom yum paste
- 4 button mushrooms, sliced
- 8 cups chicken stock
- 1 tomato, seeds removed and diced
- 16 medium green prawns, peeled
- 2 tablespoons lime juice

1. Add the first 6 ingredients into the wok and heat on high sear, when the soup boils, reduce the wok to a simmer, setting 2, for 5 minutes to infuse the flavours.
2. Add the tomato and prawns, return to the boil, simmer for a further 5 minutes or until the prawns are just cooked, add the limejuice and serve.

Serve with corriander leaves.

SOUPS cont'd

CHINESE WON TON SOUP

Serves 6

- 50g dried sliced mushrooms
- 2 teaspoons grated ginger
- 6 cups chicken stock
- 200g fresh egg noodles
- 24 prepared won tons (available frozen from supermarkets)
- 4 green shallots, sliced

1. Place the mushrooms into boiling water for 10 minutes then drain.
2. Place the ginger and stock into the wok and heat on high sear setting to boil, add the noodles and won tons, return to the boil.
3. Reduce the heat to setting 2, simmer the soup for 7 minutes to cook the won tons.

Serve with sliced green shallots.

FRENCH ONION SOUP

Serves 4-6

- 1 tablespoons butter
- 1 tablespoon oil
- 6 medium brown onions, finely sliced
- 1 clove of garlic, crushed
- 2 tablespoons of plain flour
- 1 cup red wine
- 1 teaspoon chopped fresh thyme
- 6 cups beef stock
- 1 tablespoon brown sugar

1. Heat the wok on high sear setting, add the oil, butter, then the onions and garlic. Stir fry the onions until they have a golden colour.
2. Add the flour and cook for 1 minute
3. Add then wine and thyme and reduce the liquid by half.
4. Add the beef stock and brown sugar, bring the soup to the boil. Reduce the heat to setting 2, simmer the soup for 30 minutes, add salt and pepper if desired before serving.

Serve with cheese croutons.

SOUPS cont'd

MOROCCAN PUMPKIN SOUP

Serves 4-6

- 2 tablespoons cooking oil
- 2 brown onions, finely diced
- 2 cloves garlic, crushed
- 1 teaspoon ground cumin
- 1 teaspoon garam marsala
- 1 teaspoons paprika
- ½ teaspoon ground white pepper
- 800g Butternut pumpkin, peeled and diced
- 5 cups chicken stock
- 300ml sour cream
- ¼ cup fresh coriander leaves, finely chopped

1. Heat the wok on high sear setting, add the oil, saute the onions, garlic, and ground spices for 2 minutes.
2. Add the pumpkin to coat with the onion and spice mix, then add the stock and bring the mixture to the boil.
3. Reduce the heat to setting 2, place the lid on and cook the soup for 20 minutes, with the lid on until the pumpkin is cooked, transfer the mixture to a blender to puree.
4. Return the mix to the wok to heat through, check the seasoning before serving.

Serve with a dollop of sour cream and coriander leaves.

CHICKEN (OR PRAWN) LAKSA SOUP

Serves 4

- 2 cups coconut milk
- ¼ cup Singapore laksa paste
- 2 cups chicken stock
- 500g chicken thigh meat, finely sliced
- 500g fresh rice noodles
- 1 tablespoon lime juice
- 1½ tablespoons fish sauce

GARNISH

- 125g bean sprouts
- Coriander leaves
- Mint leaves (Vietnamese if available)
- Fried shallots (available prepared in Asian supermarkets)

1. Add the coconut milk and laksa paste to the wok and heat on high sear setting, to bring the laksa to the boil. Reduce the heat to setting 6 and cook for 5 minutes until the oil rises to the surface.
2. Add the stock and chicken and bring the soup to the boil, simmer for 5 minutes, add the fish sauce and lime juice.
3. Place the soup into each bowl and top each with the garnish.

ENTREES AND ACCOMPANIMENTS

SPICED WOK FRIED NUTS

- 3 tablespoons olive oil
- 250g unsalted cashews
- 200g salted macadamia nuts
- 200g unsalted shelled peanuts
- 1 cup raw pistachios
- 1 cup blanched almonds
- 1 teaspoon ground cumin
- 2 teaspoons ground garam marsala
- 1 tablespoon curry powder
- ½ teaspoon ground chilli powder
- 1 teaspoon salt

1. Heat the wok on high sear setting, add the oil then nuts, stir fry until the nuts are golden in colour, remove and drain on paper towelling.
2. Cook spices in the same wok stirring for 1 minute, return nuts back to wok, stir until all nuts are coated.

Serve warm or cold.

STIR FRIED CAMELISED ONIONS

Serves 4-6

- 2 tablespoons olive oil
- 60g butter
- 12 spring onion bulbs, halved
- 6 medium Spanish onions, cut into wedges
- 2 cloves garlic, sliced
- ¼ cup brown sugar
- 2 tablespoons balsamic vinegar
- 1 tablespoon extra virgin olive oil

1. Heat the wok on high sear setting, add the oil and butter then the onions, cook until the onions have a golden colour, add the garlic and cook a further 2 minutes, reducing the heat to setting 6.
2. Sprinkle with brown sugar and cook until it has dissolved.
3. Cook for a further 10 minutes, then drizzle with remaining ingredients.

Serve as an accompaniment to grilled meat or fish.

ENTREES AND ACCOMPANIMENTS cont'd

CRISPY TEMPURA VEGETABLES WITH DIPPING SAUCE

Serves 4-6

1kg selection of vegetables
ie: broccoli, florets; eggplant, sliced; carrot, sliced; snow peas; beans, top and tailed; cauliflower, florets; zucchini, sliced; kumara; sliced; green shallot, cut into 5cm pieces

DIPPING SAUCE

$\frac{1}{2}$ cup light soy sauce
1 tablespoon mirin
2 teaspoons hot water

1. To prepare the dipping sauce place all ingredients into a small bowl and stir, let the sauce sit for 10 minutes before serving.

BATTER

1 cup plain flour
 $\frac{1}{4}$ teaspoon salt
 $\frac{1}{4}$ teaspoon white sugar
 $\frac{1}{2}$ teaspoon baking powder
1 egg yolk
 $\frac{1}{3}$ cup ice water
Vegetable oil for shallow frying

1. Sift the flour, sugar salt, and baking powder.
2. In a medium bowl mix together egg yolk and iced water, add the flour mix. Do not over mix, leave a few lumps of flour in the batter, as it will help the batter to become crispy.
3. Heat the wok on setting 10 for 8 minutes with 4 cups of vegetable oil.
4. Dip small batches of vegetables into batter mixture, and then carefully place into hot oil.
5. Shallow fry until golden brown then remove onto absorbent paper. Continue until all vegetables are cooked.

Serve with dipping sauce.

THAI FISH CAKES

Serves 4

400g boneless white fish fillets
(cod or jewfish is preferable)
 $\frac{1}{2}$ bunch coriander (roots included)
2 eggs
 $\frac{1}{4}$ cup well cooked rice
1 tablespoon red curry paste
1 teaspoon fish sauce
1 tablespoon sweet chilli sauce

1. Dice the fish and finely chop the coriander.
2. Place all the ingredients into a food processor; blend the ingredients using the pulse button, until the mixture is pureed.
3. To shape the fish cakes can be a little difficult; to make it easier place a little oil onto the palm of your hands before moulding. Shape the fish cakes onto a flat round shape 3-4cm wide and place onto a greased tray.
4. Heat the wok on setting 10 for 8 minutes with 4 cups of vegetable oil.
5. Place 6-8 fishcakes into the oil and shallow fry until golden brown in colour, repeat with the remaining fish cakes.

Serve with sweet chilli sauce and lime wedges.
