## Marking a Waypoint

**To mark your current location:**

1. Press and hold **ENTER/MARK** until the Review Waypoint Page appears, and then release it. The GPSMAP 392/398/492/498 captures its current location and creates a default name and symbol for the new waypoint.

2. To accept the waypoint with the default information, press **ENTER**, or to change any waypoint information, highlight the appropriate field and press **ENTER**.
**Review Waypoint Page**

**To create a new waypoint from a map feature:**

1. Use the **ROCKER** to move the pointer and highlight the map feature you want.

2. Press **ENTER/MARK** to capture the pointer location. The Review Page for the selected map feature appears.

3. Press the **Create Wpt** soft key to open the Review Waypoint Page.

4. To accept the waypoint with the default information, press **ENTER**.

## Finding an Item

**To find an item from your current location:**

1. From any page, press **FIND** to open the Find From Current Position Page.

2. Highlight a category, and press **ENTER**. For some categories, you might need to select multiple subcategories.

3. Highlight an item in the search results list, and press **ENTER**. The Review Page appears showing item information, map location, chart name, distance/bearing, and options for creating a waypoint or viewing the next item in the search results list.
**Find From Current Position**
**Review Page**

## Navigating to a Destination

**To use the NAV key:**

1. Press **NAV** to access the Navigation menu.

2. Highlight **Go To Point**, **Follow Route**, **Follow Track**, or **TracBack**, and press **ENTER**.

3. Use the **ROCKER** to highlight a point, track, or route from the list, and press **ENTER**.

4. If you selected a point, press **ENTER** again with **Go To** highlighted. If you selected a route or saved track, choose from the selections, and press **ENTER** to begin navigation.

**Navigation Menu From Present Location**

**Go To Point—Find From Current Position**

## MOB (Man OverBoard)

The GPSMAP 392/398/492/498's Man OverBoard function (MOB) simultaneously marks and sets a course back to the marked location for quick response to emergency situations.

**To start the MOB function:**

1. Press and hold **NAV/MOB**.

2. Press **ENTER** to begin navigating to the **MOB** location.

3. To stop navigation to the **MOB** location, press **NAV**, highlight **Stop Navigation**, and press **ENTER**.
**MOB Navigation Back to a Location**

# Startup/Shutdown Sequence

**To turn on the GPSMAP 392/398/492/498:**
1. Press and hold the **POWER** key until the power tone sounds, and then release the **POWER** key. The title page, and then the Warning Page appears while the unit conducts a self-test.
2. When the self-test is complete, press **ENTER** to agree and acknowledge the warning.
**Warning Page**          **Satellite Page**

**To turn off the GPSMAP 392/398/492/498:**
1. Press and hold the **POWER** key.
2. When the screen is blank, release the **POWER** key.

# Main Menu

**To change a setting using the Main Menu:**
1. From any page, press and hold the **ADJ/MENU** key to open the Main Menu.
2. Use the **ROCKER** to select a tab, and then press right or left on the **ROCKER** to select a sub tab.
3. Highlight the field you want to change, and press **ENTER**.
4. Make any changes, and press **ENTER**.
5. Press **QUIT** to return to the main page.

**Main Menu**

# Main Pages

The GPSMAP 392/398/492/498 contains seven main pages.

**To cycle through main pages:**
Press **PAGE**.
**Map Page**          **Map Split Page**          **Sonar Page**          **Flasher Page**
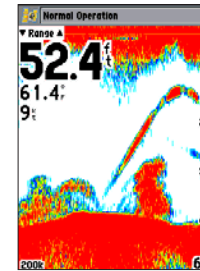

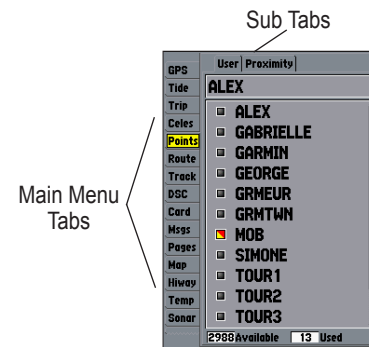

**Compass Page**          **Highway Page**          **Active Route Page**

The Map Split, Sonar, and Flasher Pages do not appear unless the unit is receiving sonar information.

# Adjusting the Backlight

**To adjust the backlight level:**
1. Press and release the **POWER** key.
2. Press up or down on the **ROCKER** to adjust the backlight level.
3. Press **ENTER** to accept.

# Keypad Usage

**POWER/BACKLIGHT**—press and hold for two seconds to turn the unit on or off. Press and release to adjust the screen backlighting.

**RANGE**—press Up to increase, or press Down to decrease the range of the Map Page, Highway Page, and other range-related functions.

**ROCKER**—press up, down, right, or left to move through lists, highlight fields, select options and locations, enter data, or move the map pointer.

**PAGE**—press to cycle through the main pages in sequence and return the display from a sub page to a main page.

**QUIT**—press to return to a previous page, restore a data field's previous value, and exit out of menus.

**ENTER**—press to select highlighted fields, confirm menu options and enter data.
**MARK**—press and hold for two seconds to capture your current location and open the Review Waypoint Page.

**ADJ**—press to show available options and features for the current function.
**MENU**—press and hold to open the Main Menu.

**NAV**—press and release to access navigation options.
**MOB** (Man OverBoard)—press and hold to mark your current location and instantly set a return course.

**DATA**—press to toggle the display of a main page with/without function windows and data fields.
**CNFG**—press and hold to open the Configuration window to customize main pages.

**FIND**—press to initiate the Find options, so you can search for user points, map items, and any optional data card information.
